#### Session Overview

This presentation will cover the ERB task force teams that were formed, and the learnings gained along the way to assist others in how to reduce emissions to meet corporate sustainability goals proactively. Two new oil and gas applications of renewable energy technologies will be presented that received grant funding from the North Dakota Clean Sustainable Energy Authority. This innovative work led Enerplus to win the North Dakota Petroleum Council's annual Environmental Stewardship award in September 2022.

#### Meet our Speakers

**Bonnie Ellwood** is a Senior Environmental Engineer at Enerplus Corporation in Denver, where she works on emission reduction projects. She graduated from the University of Texas, with a bachelor's degree in Geosystems Engineering and Hydrogeology in 2004. She has spent her career at Encana and Enerplus working in a myriad of Operations Engineering roles, including Production, Completions, and Facilities. She worked Operations in the Jonah field, the DJ Basin, the Powder River Basin, and her personal favorite, the Bakken.

# COMPLETION STUDY GROUP

## Embracing Electric
